SUMMARY OF GENERAL STATISTICS AND PHYSICAL
FEATURES:

Summary of Statistics	5-6
Causes of Death - Table 1	7
Birth Rate, Death Rate and Analysis of Mortality - Table 2	8

INFECTIOUS DISEASES:

Distribution in the various Parishes - Table 3	9
Monthly Incidence - Table 4	10
Ages, etc. of Cases - Table 5	11
Tuberculosis - Table 6	12
Diphtheria Immunisation - Table 7	13
Vaccination - Table 8	14

NURSING HOMES AND AMBULANCE FACILITIES:

Nursing Homes - Table 9	15
Ambulance Facilities - Table 10	16

SANITARY CIRCUMSTANCES IN THE AREA:

Summary of visits and work carried out - Table II	17
Housing - Table 12	18-19
Inspection and Supervision of Food - Table 13	20
Rodent Control - Table 14	23
Eradication of Insect Pests - Table 15	24
Factories Act, 1937 - Table 16	25-26

To the Chairman and Members of the
Cranbrook Rural District Council.

MR. CHAIRMAN, LADIES AND GENTLEMEN,

I have the honour to submit my Annual Report for the year 1952. The report is prepared on the lines indicated in the Ministry of Health Circular No. 2/53 dated 22nd January, 1953.

The Crude Birth Rate is 14.4 per 1,000 of the population and this rate corrected for comparability in age and sex distribution with the country as a whole becomes 16.41. The Birth Rate for England and Wales is 15.3.

The Crude Death Rate is 10.9 per 1,000 of the population and this rate corrected for comparability in age and sex distribution with the country as a whole becomes 9.8. The Death Rate for England and Wales is 11.3.

The Infantile Mortality Rate was 28.6 compared with 27.6 for England and Wales and with 14.71 in 1951.

The Tuberculosis Death Rate was 0.14 as compared with 0.27 in 1951.

Infectious Disease.

The number of Infectious Diseases notified during the year was 118 as compared with 498 in the previous year. It must, however, be borne in mind that this decrease was mainly due to the absence of Measles and Whooping Cough epidemics. Only seven cases of Whooping Cough were notified as compared with 139 in the previous year and only 53 cases of Measles as compared with 292 in the previous year.

Enteric Group.

One case of Dysentery was notified during the year.

Food Poisoning.

Six cases of illness caused by Food Poisoning organisms were reported during the year. There was no outbreak of Food Poisoning as such, the six cases being individual cases with no established connection.

Poliomyelitis.

One case was notified during the month of September in a child aged three years. The case occurred in a family who had visited the district for the Hop Picking season and was incubating the disease before its arrival.

Scarlet Fever.

The monthly distribution of the cases is given on Table 4 and shows the usual autumnal increase with a heavy incidence in the month of December.

Very little Infectious Disease was reported from the Hop Pickers Camps.

Diphtheria Immunisation.

During the year the number of inoculations carried out at the Welfare Clinics and by private Doctors in the district were 220 primary and 114 reinforcing. Corresponding figures for the previous year were 183 and 112 respectively. It will be noted on the Table of Notifiable Infectious Diseases that no case of Diphtheria was reported in the district during the year. There is little doubt that the disappearance of Diphtheria in the district and indeed the very low incidence of the disease in England and Wales as a whole can be attributed to the results of immunisation which has been generally accepted by parents in this country. I do hope, however, that the continued absence of the disease in the district will not lull parents into a sense of false security thereby neglecting the essential step of having their children immunised.

Vaccination.

During the year 191 children under five years of age were vaccinated, the corresponding figure for the previous year was 194.

Hop Pickers Camps.

One hundred and thirty-six Camps embracing a total of 4,595 huts were occupied during the year by 14,000 people. All Camps were inspected before and during occupation. The structural standard of huts continues to improve and 64 new huts were built during the year. Main water is laid on to 122 Camps. Unfortunately there are still some huts with earth floors and the Bye-laws do not enforce concrete floors in pre-1939 huts. It is to be hoped that in the near future this type of primitive hut will have completely disappeared. Some of the Camps were inspected by an Inspector of the Ministry of Health who reported satisfactorily on them.

In conclusion I would like to thank the members of the Council, and especially the Chairman and members of the Health Committee for their kind interest in the working of the Department. My thanks are also due to the members of the staff of the Health Department for their loyal and conscientious work throughout the year.

I am, Mr. Chairman, Ladies and Gentlemen,

Your obedient Servant,

P. A. CROWLEY,

Medical Officer of Health.

SUMMARY OF GENERAL STATISTICS AND PHYSICAL FEATURES.

AREA: 41,315 Acres.

POPULATION: (R.G.'s Estimate 1952) - 14,620
R.G.'s Census figure 1951 - 13,788

DENSITY OF POPULATION, i.e., number of persons per acre: 0.354.

NUMBER OF INHABITED HOUSES: 4,267

NUMBER OF PERSONS PER INHABITED HOUSE: 3.4

RATEABLE VALUE, 1952: £82,269

SUM PRODUCED BY A PENNY RATE: 1951/52 £326

BIRTHS.

Live Births (Registered):	Total.	Male.	Female.
Legitimate	197	96	101
Illegitimate	13	4	9
	<u>210</u>		

Corrected Birth Rate: 16.41

Live Birth Rate per 1,000 population: 14.4

Corresponding rate for 1951: 15.9

Stillbirths:	Total.	Male.	Female.
Legitimate	3	2	1
Illegitimate.. ..	1	1	-
	<u>4</u>		

Stillbirth Rate per 1,000 births: 19.0

Stillbirth Rate for England and Wales: 22.6

DEATHS.

Males: 74. Females: 85. Total: 159.

Standardised Death Rate: 9.8.

Crude death rate per thousand of population: 10.9.

Corresponding rate for 1951: 11.64.

Number of women dying in, or in consequence
of child birth Nil

Maternal mortality per 1,000 total registered
births 0.0

INFANTILE MORTALITY.

Deaths of infants under one year of age:-

	Total.	Male.	Female.
Legitimate	6	4	2
Illegitimate	-	-	-

Death rate of infants under one year of age per 1,000 live
births: 28.6. (1951: 14.71).

TUBERCULOSIS

The Kent County Council are responsible for the aftercare of cases of tuberculosis occurring within the district. Hospital accommodation and sanatorium treatment are provided by the Regional Hospital Board.

In the following table are particulars of new cases, deaths, recoveries, and removals during the year.

	Pulmonary		Non-Pul.		Total
	M.	F.	M.	F.	
Number on register at 1st January, 1952.	112	65	28	33	238
Number of new cases notified during the year.	4	6	1	-	11
Number of cases added to register during the year (inward transfers)	4	2	-	-	6
Number of cases removed from the register during the year (transfers out)	4	2	-	-	6
Number of cases recovered during the year.	1	-	-	1	2
Number of cases died during the year.	* 2	-	-	-	2
Number of cases remaining on the register at the 31st December, 1952.	113	71	29	32	245

* One death was of an un-notified case and the other death from kidney disease.

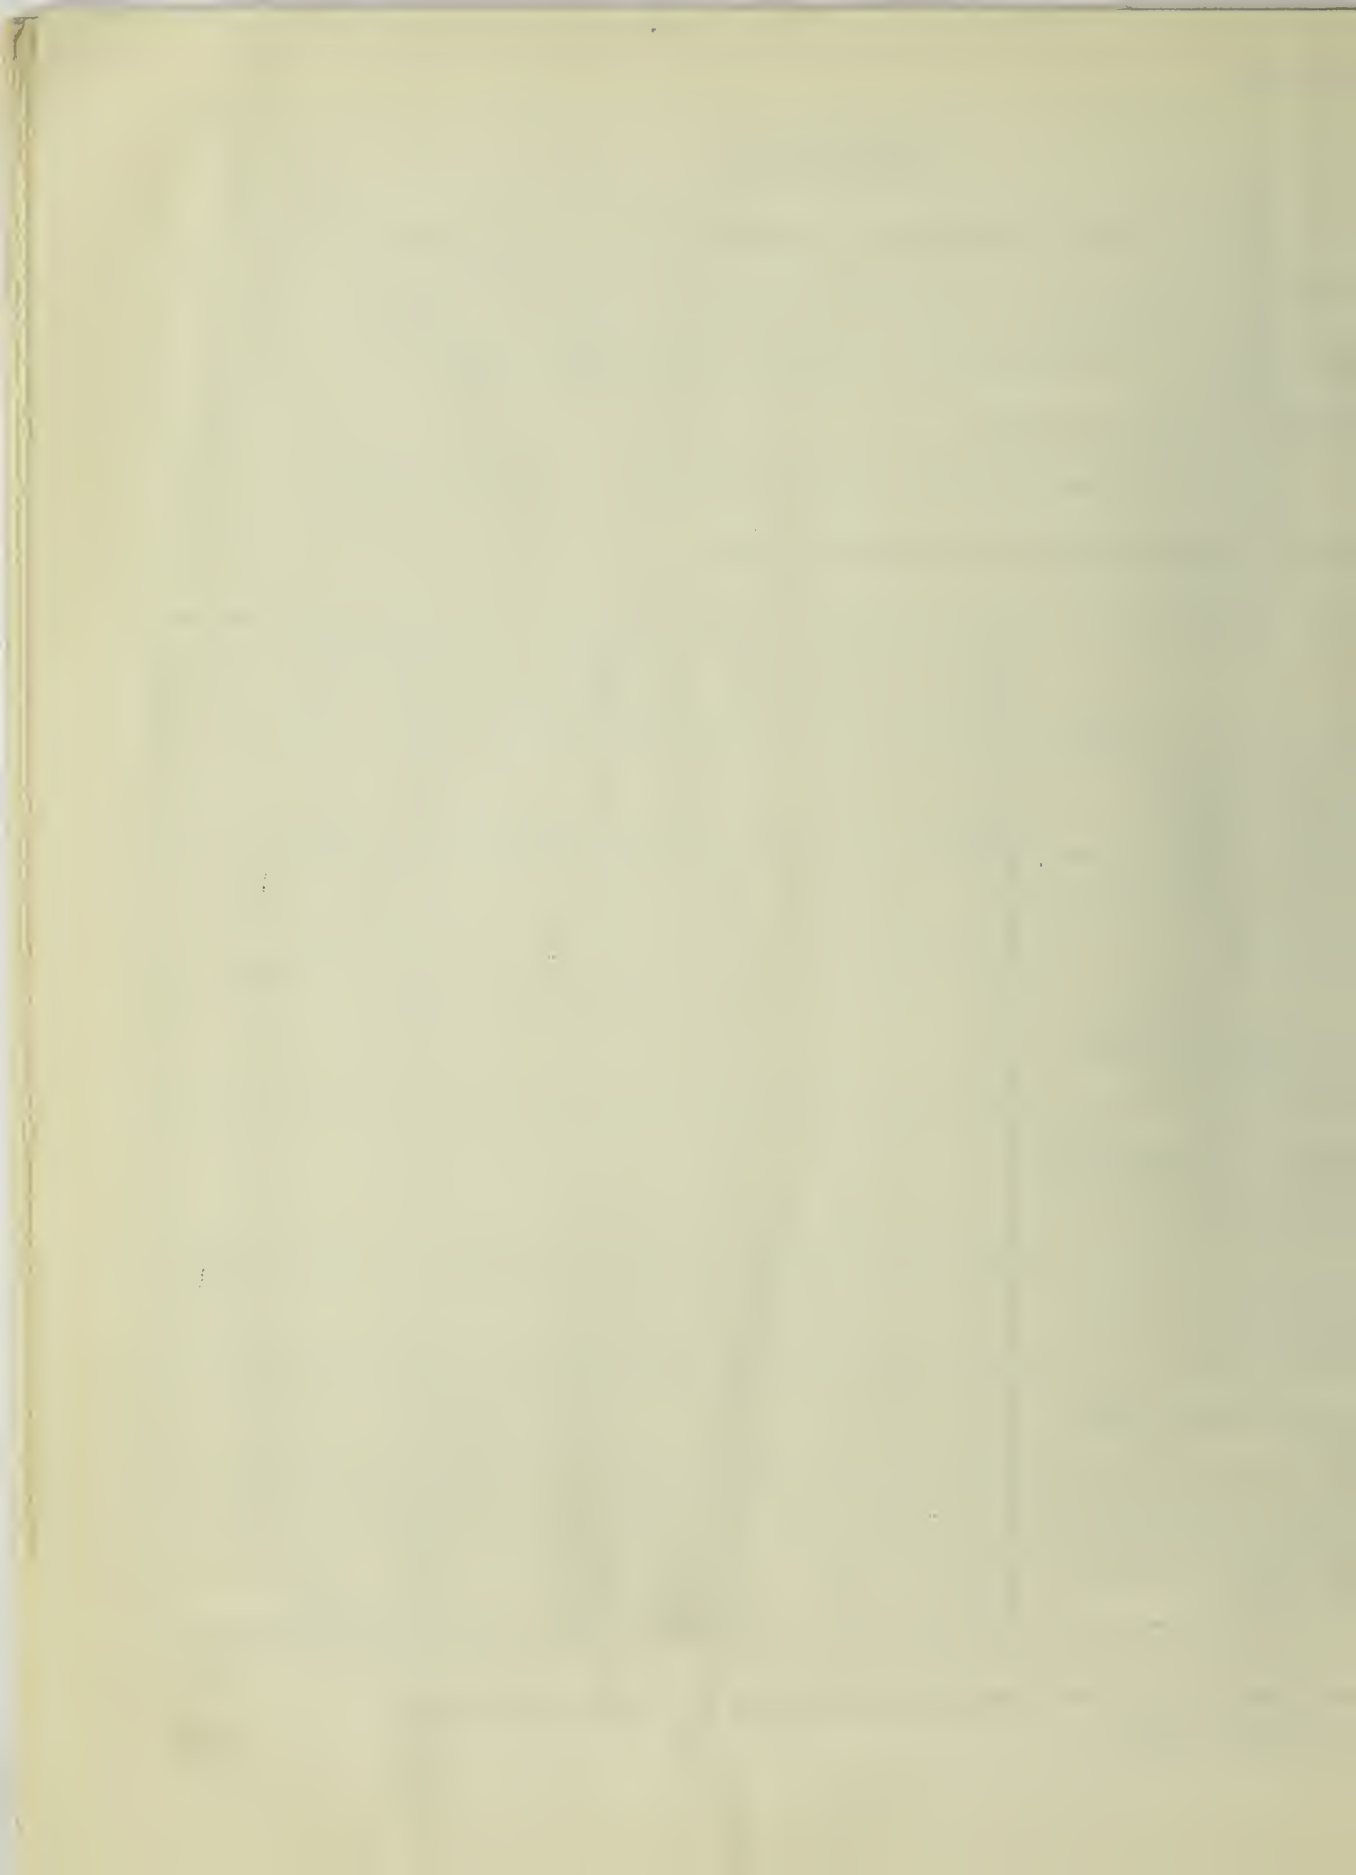

Table No. 7.

DIPHTHERIA IMMUNISATION.

Immunisation is the responsibility of the Kent County Council, and I am indebted to Dr. A. Elliott, the County Medical Officer, for the following table giving the position at the 31st December, 1952:-

Year of Birth.	Primary Inoculations	Reinforcing Inoculations
1952	16	-
1951	155	-
1950	24	-
1949	9	1
1948	4	2
1947	9	69
1946	3	13
1945	-	8
1944	-	2
1943	-	3
1942	-	1
1941	-	2
1940	-	-
1939	-	3
1938	-	10
TOTAL	220	114

VACCINATION.

Vaccination of infants against smallpox is also carried out by the Kent County Council and the following figures were furnished by the County Medical Officer, giving the number of persons vaccinated during the year ended 31st December, 1952:-

Age at 31st December, 1951.	Under 1	1 to 4	5 to 14	15 or over	Total
Number vaccinated	111	80	3	3	197
Number re-vaccinated	-	2	14	39	55

Table No. 9.

NURSING HOMES

	Number of Homes.	Number of beds provided for:-		
		Maternity	Others	Totals
Homes first registered during the year ..	-	-	-	-
Homes on the register at the end of the year ..	3	-	27	27

During the year periodic visits of inspection were made, these being carried out by the Medical Officer of Health, who also supervises the adaptation of fresh premises for nursing home purposes, paying as many visits as occasion requires.

AMBULANCE FACILITIES.

This service is the responsibility of the Kent County Council and is operated by the British Red Cross Society from the Station at the Vestry Hall, Cranbrook. The ambulance service is available for day and night calls.

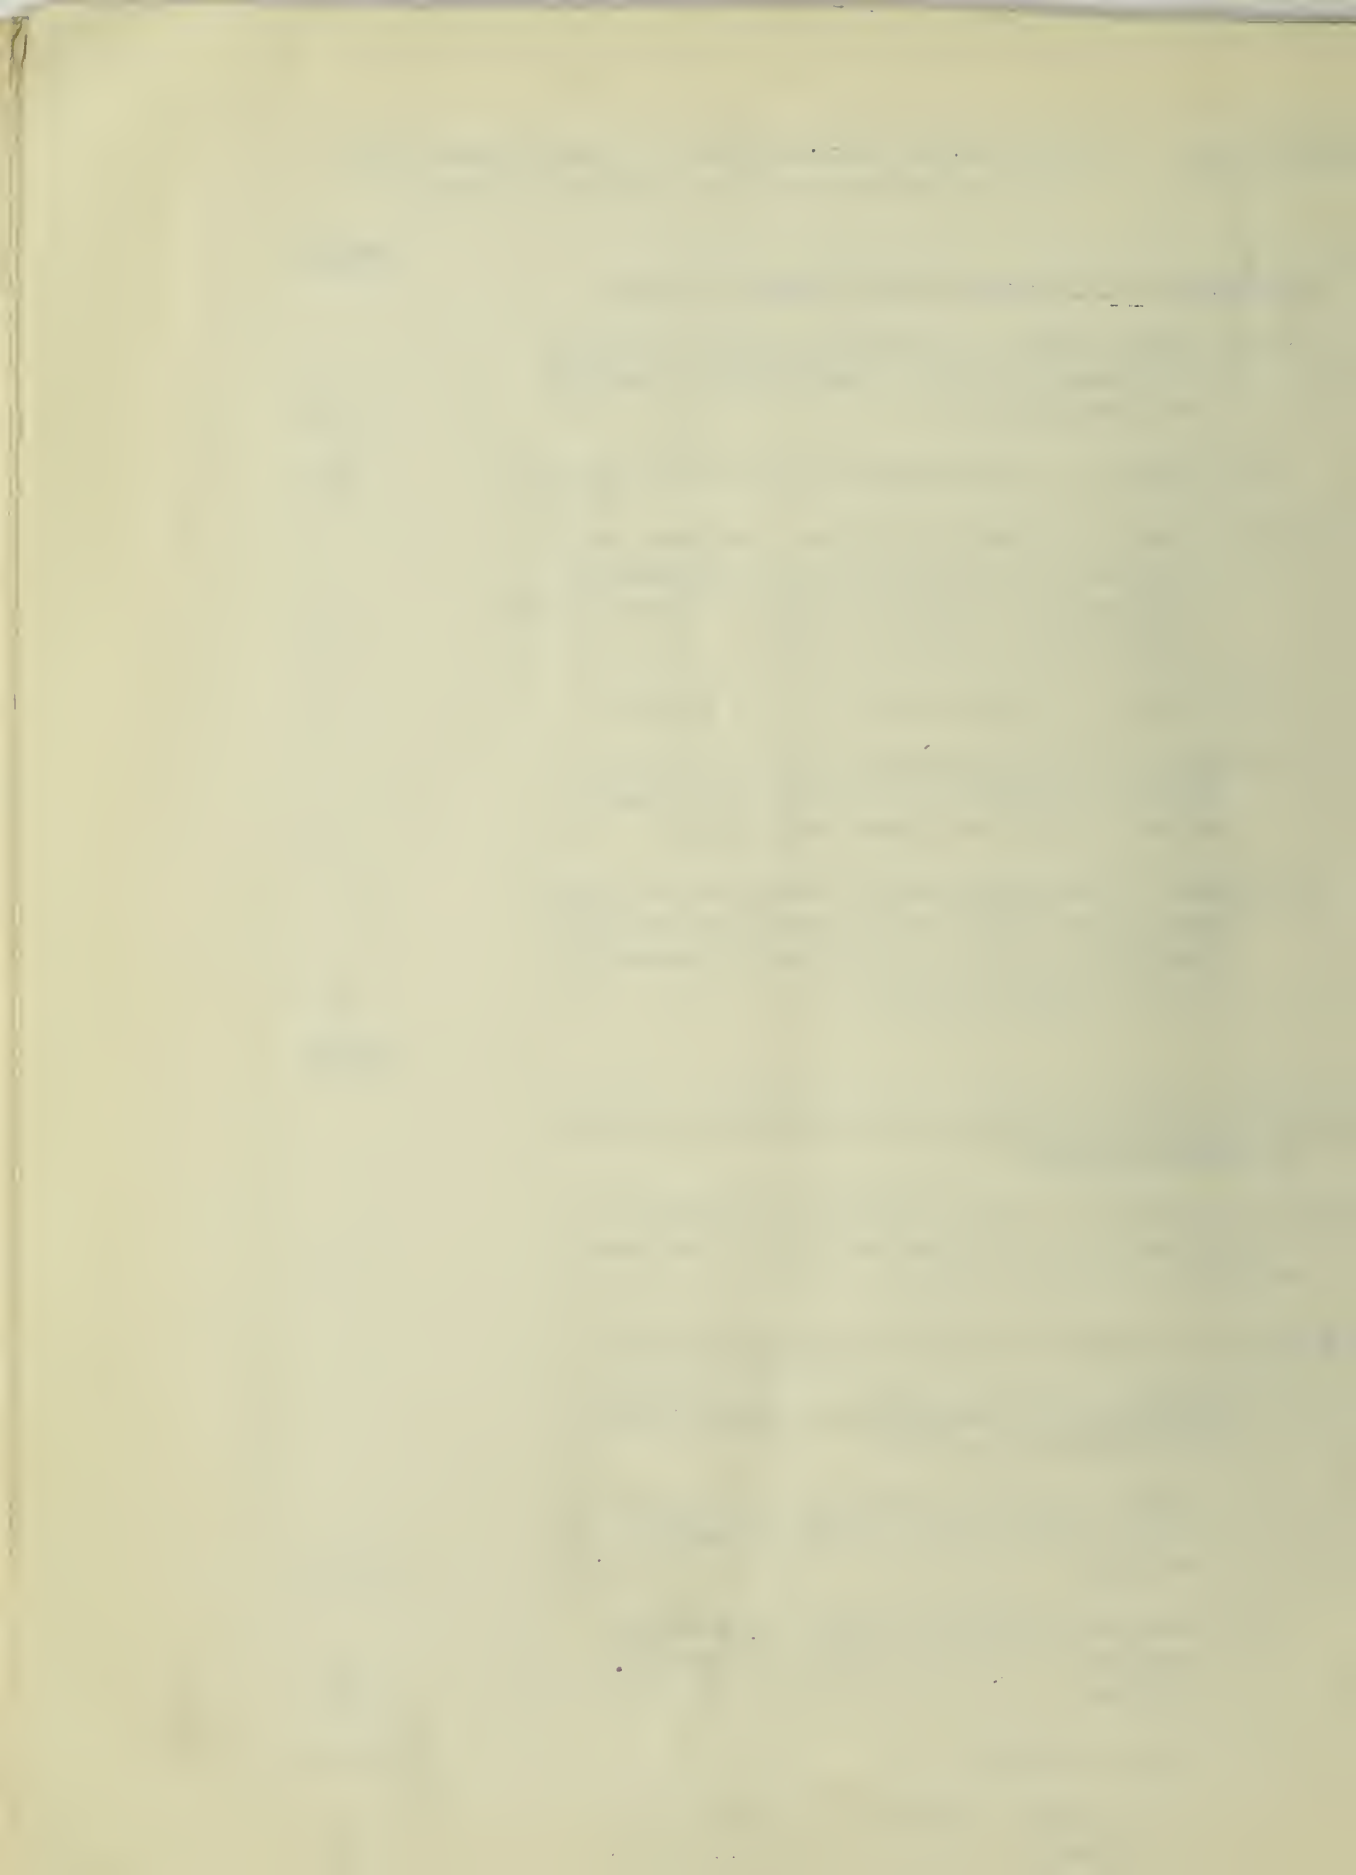

Table No. 11.

THE FOLLOWING TABLE GIVES A GENERAL SUMMARY OF THE WORK
CARRIED OUT BY THE SANITARY INSPECTORS DURING THE YEAR 1952:-

							<u>Number</u>
Visits to Bakehouses	..	..	..	..	..	..	34

Table No. 12. - The following information is in accordance with the requirements of the Ministry of Health.

	<u>Number</u>
1. <u>Inspection of dwelling-houses during the year:-</u>	
(1) (a) Total number of dwelling-houses inspected for housing defects (under Public Health or Housing Acts)	141
(b) Number of inspections made for the purpose	236
(2) (a) Number of dwelling-houses (included under sub-head (1) above) which were inspected and recorded under the Housing Consolidated Regulations, 1925 and 1932	26
(b) Number of inspections for the purpose ..	69
(3) Number of dwelling-houses found to be in a state so dangerous or injurious to health as to be unfit for human habitation ...	5
(4) Number of dwelling-houses (exclusive of those referred to under the preceding sub-head) found not to be in all respects reasonably fit for human habitation	121
	<u>Number</u>
2. <u>Remedy of Defects during the year without service of formal Notices:-</u>	
Number of defective dwelling-houses rendered fit in consequence of informal action by the Local Authority or their officers	106
3. <u>Action under Statutory Powers during the year:-</u>	
(a) <u>Proceedings under Sections 9, 10 and 16 of the Housing Act, 1936:-</u>	
(1) Number of dwelling-houses in respect of which notices were served requiring repairs	Nil
(2) Number of dwelling-houses which were rendered fit after service of formal notices	Nil
(a) By owners	Nil
(b) By Local Authority in default of owners	Nil

(b) Proceedings under Public Health Acts:-

Number

- | | |
|--|---|
| (1) Number of dwelling-houses in respect of which notices were served requiring defects to be remedied | 2 |
| (2) Number of dwelling-houses in which defects were remedied after service of formal notices | |
| (a) By owners | 1 |
| (b) By Local Authority in default of owners .. | - |
| (c) By Occupiers | - |

(c) Proceedings under Section 11 and 13 of the Housing Act, 1936:-

- | | |
|--|-----|
| (1) Number of dwellinghouses in respect of which demolition orders were made | Nil |
| (2) Number of dwellinghouses demolished in pursuance of demolition orders | Nil |

(d) Proceedings under Section 12 of the Housing Act, 1936

- | | |
|---|-----|
| (1) Number of separate tenements or underground rooms in respect of which Closing Orders were made | Nil |
| (2) Number of separate tenements or underground rooms in respect of which Closing Orders were determined, the tenement or room having been rendered fit | Nil |

4. Housing Act, 1936 - Part IV - Overcrowding:-

The Housing Register of the District Council shows that at the end of December there were 361 applicants for re-housing. It is reasonable to assume that some of these applicants are living in overcrowded conditions.

- 7 Complaints of overcrowding were investigated, of which 2 were found to be overcrowded. By the end of the year 1 of the cases of overcrowding had been abated.

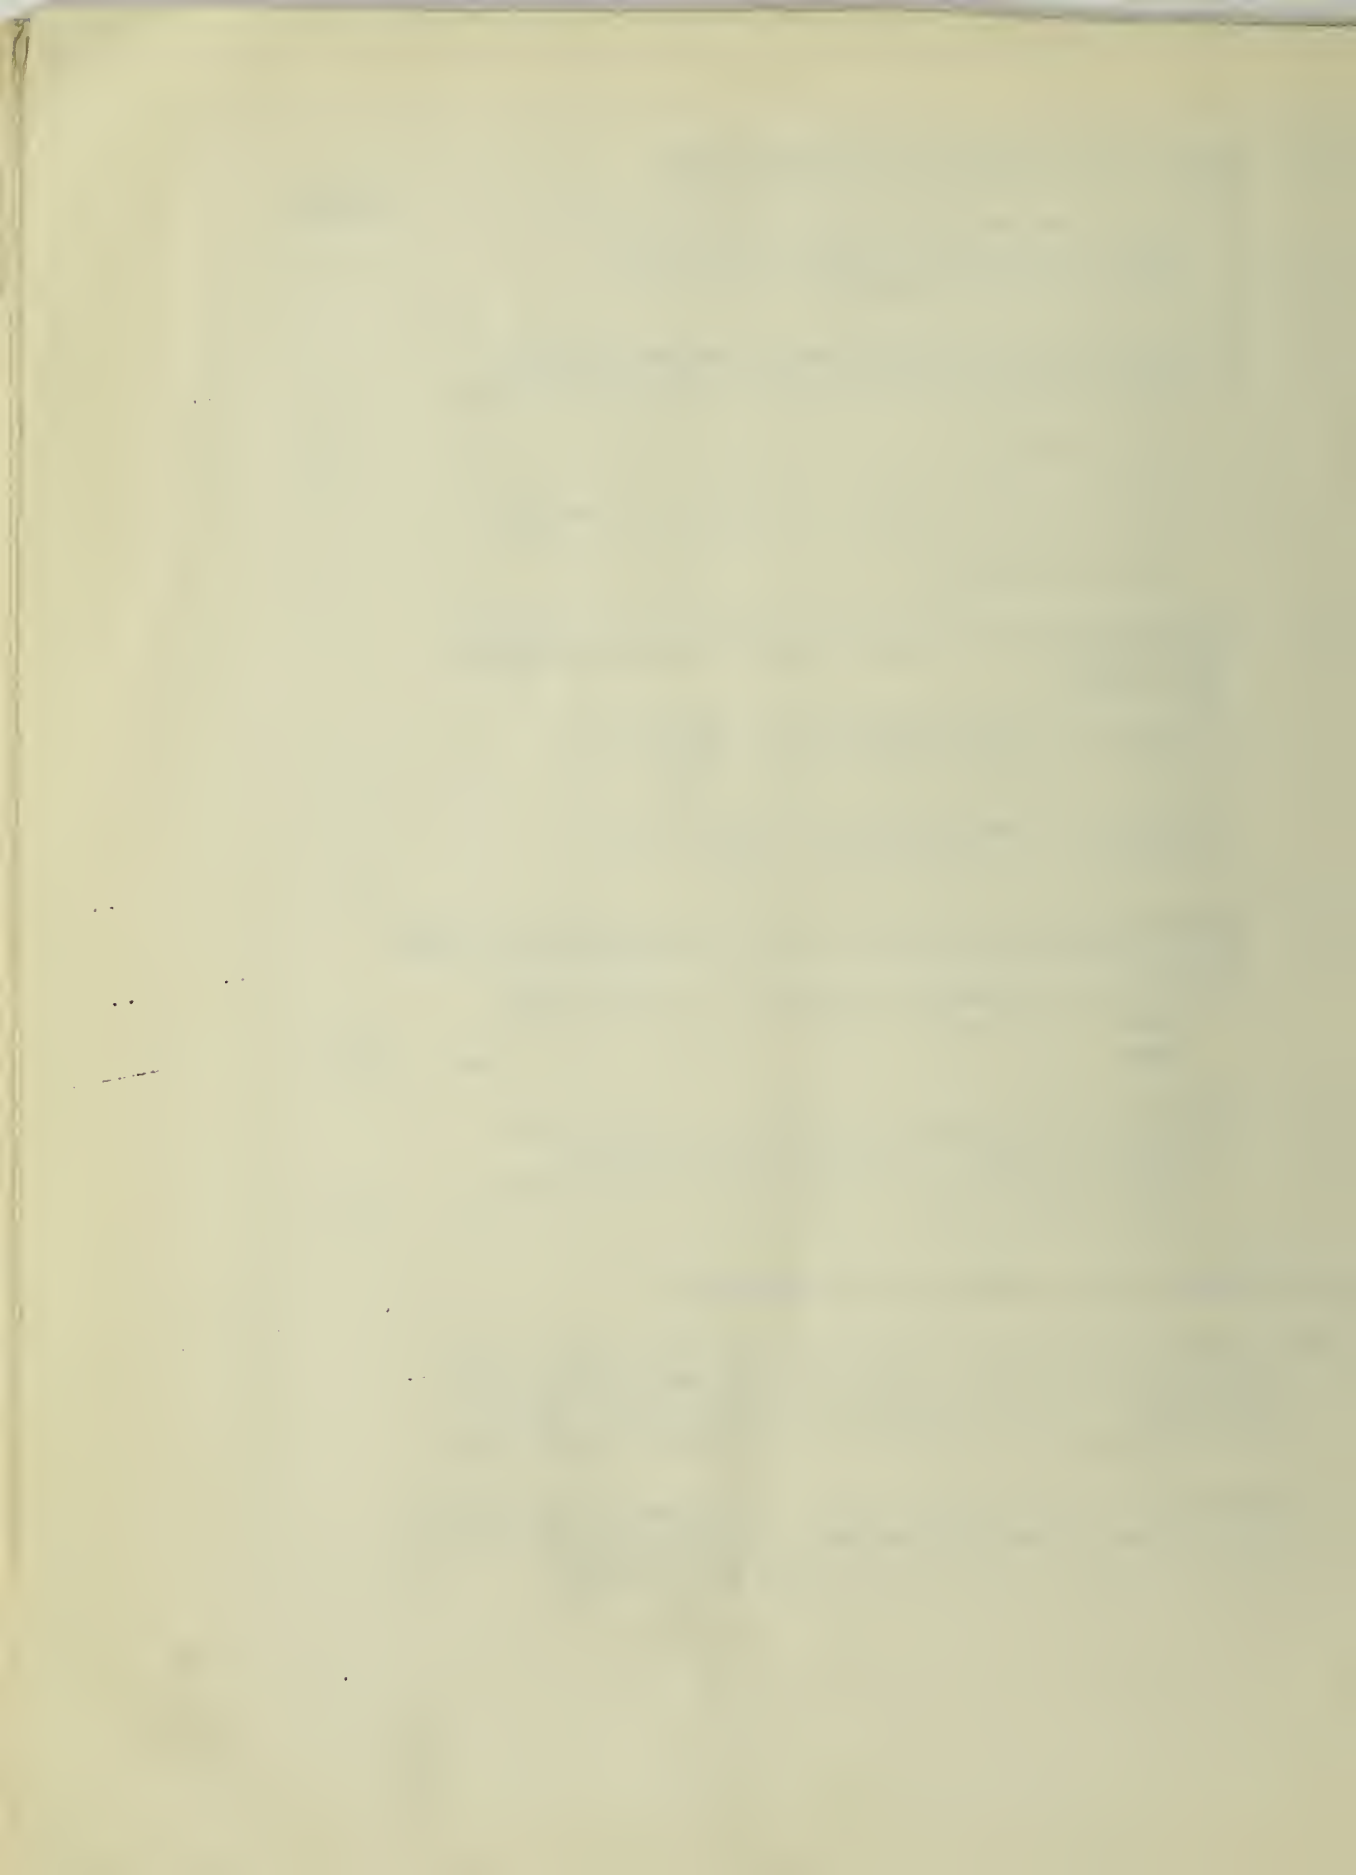

Table No. 13. - Inspection and Supervision of Food.

(a) Milk Supply:-

Number

Licences in force at the end of the year:-

Pasteurisers' Licences	..	..	..	..	..	..	Nil
Dealers' Licences: Pasteurised Milk	..	..	..	..	..	..	8
" " Sterilised Milk	..	..	..	..	..	..	7
" " Tuberculin Tested	..	..	..	..	..	..	9
" " Tuberculin Tested (Pasteurised)	..	..	..	..	..	..	Nil
Supplementary Licences: Pasteurised	..	..	..	..	..	..	1
" " Sterilised	..	..	..	..	..	..	-

Number of Distributors of Milk in the District:-

(a) with premises inside the District	..	..	..	17
(b) with premises outside the District	..	..	..	2

Number of dairies in the District (excluding farms) .. 9

Number of shops selling bottled milk 6

(b) Meat and Other Foods:-

Unsound food surrendered by retail shops and wholesale stores 10 cwt. 1 qtr. 3 lbs.

Number of visits to food premises (other than slaughterhouses) 212

Samples of Food and Drugs examined by Public Analyst Nil

" " " " " found below standard .. Nil

(c) Details of Food found to be unfit for human consumption in Retail and Wholesale Food Premises:-

Weight

<u>Item of Food</u>	<u>T.</u>	<u>C.</u>	<u>Q.</u>	<u>lbs.</u>
Tinned goods		7	-	4
Meat		3	-	27

MILK (SPECIAL DESIGNATIONS) REGULATIONS, 1949.

Licences were issued during the year to milk dealers, as follows:-

To use the designation "Tuberculin Tested"	10
To use the designation "Accredited"	Nil
To use the designation "Pasteurised"	9

Nineteen samples of designated milk were submitted to the Bacteriologist for examination and two were found to be unsatisfactory.

Two samples were sent for biological test and both results were negative.

FOOD AND DRUGS ACT, 1938.

During the year 419 visits were paid to food premises and shops in the district including 129 to restaurants, butchers and other licensed premises.

The various classes of premises were generally found to be maintained in a satisfactory condition.

ICE CREAM.

Registration of Premises

Total number of registered premises:-

For manufacture	..	..	..	..	Nil
-----------------	----	----	----	----	-----

For storage and sale	..	..	..	36
----------------------	----	----	----	----
